

Job Posting

Specially Appointed Associate Professor (Lecturer)

Affiliation	Department of Transdisciplinary Science and Engineering, School of Environment and Society
Position title	Specially Appointed Associate Professor (Lecturer)
Number of Openings	1
Area of Specialization	Research areas of current faculty members in the Department of Transdisciplinary Science and Engineering
Job Description	The successful candidate will be required to engage in research, education, and student supervision in the Global Scientists and Engineers Program (GSEP)* of the Department of Transdisciplinary Science and Engineering. The successful candidate will be involved in the following activities: • Teaching following two undergraduate subjects: - TSE.A202 Solid Mechanics and Structure Engineering - TSE.A205 Fluid Engineering • Co-teaching the “Science Tokyo Visionary Project” and other common subjects with GSEP faculty members and other responsible faculty member of Science Tokyo • Managing GSEP-related academic affairs, such as curriculum development and paperwork • Participating in recruitment and public relations for program promotion • Participating in admission process and its preparation • Mentoring GSEP students • Conducting joint research with a faculty member in the Department of Transdisciplinary Science and Engineering (excluding faculty members whose affiliation is with other departments) • Prioritizing teaching and GSEP management over research activities *Details about GSEP are available at http://www.tse.ens.titech.ac.jp/~gsep/
Qualifications	• Applicants must hold a doctorate (e.g. PhD, D. Eng.) in related areas currently undertaken by faculty members in the Department of Transdisciplinary Science and Engineering by the date of employment. • Having a solid understanding of the Japanese university system through prior study or research experience in Japan. Holding a degree from a Japanese university is preferable. • Candidates must be highly motivated, open to learning from colleagues and students, and demonstrate a strong sense of initiative in collaborative environments.

Location	Ookayama Campus Nearest station: Ookayama
Working Hours	De facto working hours* under the discretionary labor system: 7 hours 45 minutes per day (38 hours 45 minutes per week) *Hours considered as working hours
Term	The initial contract term concludes on March 31, 2027 and will be extended for another year. Subject to a formal performance evaluation and review, the contract may be extended on an annual basis. The maximum cumulative period of employment under this contract shall not extend beyond March 31, 2032.
Probationary Period	14 days
Salary	Annual salary (annual base salary) The applicant's salary will be determined in accordance with the Institute's Employment Regulations for Fixed-Term Staff. The determined annual salary will be divided into twelve (12) equal installments and paid on a monthly, subject to applicable statutory deductions and withholdings.
Social insurance and other benefits	Employees' pension, MEXT Mutual Aid Association short term benefits (health insurance), employment insurance, worker's compensation insurance
Employer	President and Chief Executive Officer of National University Corporation Institute of Science Tokyo
Proposed Start Date	November 1, 2026 or the earliest possible date thereafter (negotiable)
Closing Date for Application	Applications must be received by August 31, 2026
Selection Process	Selection will be based on a comprehensive review of applications and interviews. Selected applicants may be asked to have an on-campus or online interview and give a model lecture of one of the subjects listed in "Job Description". Please note that travel expenses for attending interviews will not be reimbursed.
